

Do Family Meals Matter?

Genre: Research Report

Sharing meals is beneficial for families and society. Current trends suggest, however, that family meals are becoming less common in the United States. This report explores the state of family meals and what teens think about them.

Fish Cheeks

Genre: Anecdote

Amy Tan is in despair when the boy she has a crush on and his family come to her house for dinner. Her family's foods and customs embarrass her. Her mother understands, but she teaches Amy a lesson about appreciating her culture.
