

UNIT 2 CLUSTER 1 SELECTION SUMMARIES

La Vida Robot

Genre: Technology Magazine Article

Four undocumented immigrants take on the country's top engineering students in a competition to build an underwater robot. Their relentless pursuit of success and their teacher's confidence in their abilities propel them to victory.

Reading, Writing, and . . . Recreation?

Genre: News Feature

High school students discuss their positive experiences with school clubs and organizations. Extracurricular activities such as public speaking and tutoring expose students to new experiences, which in turn help them explore career opportunities for the future.
